Monday 26th February 2024

Dear Parents/Carers,

Our current Science topic is all about living things and their habitats. On **Wednesday 13th March**, as part of this unit, the children will be taking part in a workshop delivered by Brent Lodge.

Brent Lodge is a local charity wildlife hospital that treats, rehabilitates and releases wildlife back to its natural habitat. During the workshop, children will learn about British wildlife and learn how to support their local wildlife.

Although the workshop is offered free of charge for the children, they kindly ask if you are able to make a small donation to help their wildlife hospital. I have attached their wish list as even a small donation, of one tin or sachet of food or a couple of newspapers, per child would be greatly appreciated and make the world of difference.

Thank you for your continued support.

Mr Phelan Mrs O'Donnell Mr Lawrence
